

**"FEEL THE DIFFERENCE  
OUR TOOLS KEEP VIBRATION  
WHITE FINGER AT BAY!"**

**BE SAFE** - CONSTRUCTION is more than just wearing the right gear or following regulations. It's about building a culture of safety, where every action, every decision, every conversation is guided by a deep commitment to protecting ourselves & our colleagues. It's about awareness, vigilance, & unwavering proactiveness.

**REDUCE VIBRATION, USE ANTI VIBRATION TOOLS & BE AWARE OF USAGE TIMES.**

Under load

Active Protection

Active dynamic absorber

Shift of air pressure in crank room and barrel room "actively" controls balancer to move opposite of piston.

**AVT**  
ANTI VIBRATION TECHNOLOGY
