

**Makita**<sup>®</sup>

**HIGH-PERFORMANCE TOOLS,  
BUILT FOR EVERY  
JOBSITE CHALLENGE!**

Vol.5 Jan - March - 2025

# FAQs: here are the regular queries from customers regarding sales after service, warranty, and repair

## Question 1:

**How can I locate an authorized Makita service center?**

Makita has Authorized Service Centers (ASCs) in major cities across India. To find the nearest service center, visit the official Makita website and use the "Service Locator" tool.

## Question 2:

**What does the Makita warranty cover?**

Makita's warranty covers defects in materials and workmanship under normal use. However, it does not cover damage resulting from misuse, neglect, unauthorized repairs, or normal wear and tear.

## Question 3:

**Does Makita offer tool repair services outside the warranty period?**

Yes, Makita service centers offer repair services even after the warranty period has ended. Charges for labor & replacement parts may apply.

## Question 4:

**How often should I service my Makita tools?**

The frequency of servicing depends on how often & how intensively the tools are used. It is essential to perform periodic maintenance as outlined in the user manual. For professional use, in addition to regular maintenance it's recommended to service your Makita tools every six months to maintain optimal performance.

Charging solutions for the use of two platforms			
 ←  → 		DC18RD charges both CXT and LXT batteries.	
You can charge LXT batteries with the ADP10 adapter on the DC40RB.		 ←  → 	

## Interview

# XGT

# Experience the Magic Power of Cordless XGT Angle Grinder: Steady Revs, Faster Work!

View online  
makita.in

Outstanding performance and efficiency similar to corded 1,000 W class grinder

New toolless wheel cover allows for fast & easy angle adjustment & installation/ removal of wheel cover

AFT (Active Feedback sensing Technology) turns the motor off if rotation speed suddenly slows or wheel is forced to stop

Electric brake for maximum productivity and increased operator safety

Spiral bevel gears for smoother rotations and a more efficient transfer of energy

Paddle switch; Easy-to-hold slim grip achieved by optimized parts allocation; Grip circumference smaller than DGA408

**GA027G**  
**XGT 40V Max**  
100 mm  
Cordless Angle Grinder

## Feature

Makita GA027G is a 100mm (4") cordless Angle Grinder powered by 40Vmax XGT Li-Ion battery. BL motor & the XGT battery deliver powerful grinding & cutting similar to 1,000W class AC model.

100mm (4") Paddle Switch Angle Grinder delivers cutting speeds up to 40% faster than the 18V equivalent.

Re-designed to withstand harsh conditions the GA027G is highly durable with advanced protection against heat & dust. The improved heat dissipation capacity allows for continuous heavy duty operation. In addition there are a number of enhanced safety features including Active Feedback Sensors that will shut down the tool in the event of kickback. As well as soft start, anti-restart & an electric brake that will rapidly stop the wheel rotation for safe user operation.

## MAKITA BRINGS A LOT OF LIGHT DURING SHORT DAYS

Cordless Worklight  
DML813

Cordless Worklight  
DML814

2,240 mm

The height of light head can be adjusted steplessly

1,250 mm

**DML814**  
Two lighting modes  
Spot lighting / Area lighting

**Battery capacity warning function**  
automatically notifies the user about reduction in battery capacity with the decrease of illuminance (Only one LED is on for notification).

**DML813**

Spot lighting

**Easy installation and removal of battery**

The battery port is located at the middle height of the worklight so that the user need not bend down to access the battery.

**Padlock hole for battery theft protection**

\*Padlock not included

**Three hook holes for the shoulder belt**

Two hook holes are located on the carrying handle beside the battery, and one on the end of a tripod leg.

**Tripod fixing hole**

The tripod can be firmly secured to the ground with a screw or peg.

### Continuous run time (with BL1850B)

High	Medium	Low
3.0 h	5.5 h	10 h

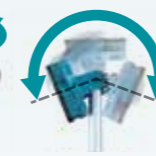

### 3 brightness settings

High	Medium	Low
3,000 lm	1,700 lm	900 lm

Pivoting range of light head for Spot lighting

**LXT 18V**

80 mm  
Cordless Sander Polisher

Compact and highly efficient BL motor provides high maneuverability and long run time

Dust cover minimizes the ingress of wool dust when buffing with a wool pad W H

High/Low 2-speed selection with variable speed in each range

Trigger lock minimizes accidental start-up during transportation

Lock-on switch reduces hand fatigue in long continuous operation

## Interview

**End User:**  
**Frozen Music**

### High-Performance Tools, Built for Every Jobsite Challenges!

At Frozen Music, we bring dreams to life with our craftsmanship. Whether it's creating pieces for superyachts, luxury hotels, or bespoke gifts, we specialize in turning exquisite ideas into reality. As skilled artisans, we work with noble materials to craft designs that reflect the unique visions of our clients.

At Frozen Music, we use a range of Makita products - Angle Grinders, Marble Cutters, work lights, and cordless Screw Drivers. Earlier, we used corded tools, but now with Makita's battery-based tools, we are seeing high efficiency and increased productivity. The tools are also hassle-free in terms of maintenance.

The battery backup is also great, & we are obtaining positive responses from our workers. We have no complaints, confident that Makita will immediately act on our feedback and suggestions.

# Power Packed, Compactly Crafted

**DHP486**

**LXT 18V**

13 mm  
Cordless Hammer Driver Drill

Compact and ergonomic design at only 7" long; 14% shorter than previous model

BL motor eliminates carbon brushes, enabling the BL motor to run cooler & more efficiently for longer life.

All metal 1/2" self ratcheting chuck for improved bit gripping strength & durability

Rubberised soft grip provides increased operator comfort

Increased max clutch torque enables to adjust clutch torque even when tightening fasteners into hard material

2-speed transmission (0-550/0-2,100 RPM and 0-8,250/0-31,500 BPM) for a wide range of drilling, fastening and hammer drilling applications

# Our BL Motors-Superior Power & Precision Cutting Performance

**DCC501**

**Cordless Cutter**

Automatic torque Drive Technology (ADT) adjusts cutting speed & torque during cut for optimum performance

Bevel cut up to 45 degrees

Auto-start Wireless System (AWS\*) connects to compatible vacuum cleaners with Bluetooth

Water supply attachment with a tank capacity of 500mL

Powerful cutting in stone, masonry, tile, concrete & more

Cuts up to 40 mm (1-9/16") with 125 mm (5") wheel can be used

\*AWS Adapter is Optional Accessories
