## FAQs: Answers to Your Common Questions on Sales, Service, Warranty & Repairs

View online  
makita.in

### Question 1:

*How often can I claim the warranty during the 2-year extended period?*

Makita ensures reliable quality, and in the rare case of an issue, you can make one warranty claim within the 2-year period whether under the standard or extended warranty giving you peace of mind with your purchase.

### Question 2:

*Where can I claim the warranty if my machine breaks down during the warranty period?*

You can claim the warranty at the nearest Makita Authorized Service Centre or Makita Factory

**Service Centre. Use the links below to locate a service centre near you:**

<https://makita.in/dealer-locator/>

<https://makita.in/services/factory-service-centres/>

### Question 3:

*Can I claim the warranty if I haven't registered my product on the Makita portal?*

Yes, you can still claim the standard warranty. However, registering your product on the Makita portal doubles the warranty period, giving you extended coverage.

### Question 4:

*How do I register my Makita product for a warranty extension?*

To extend your warranty, follow these steps:

- **Visit the Makita Portal:** Go to the official [Makita Warranty Registration Portal].
- **Create an Account or Log In:** If you don't have an account, sign up. If you already have one, simply log in.
- **Enter Product Details:** Provide the model number, serial number, and purchase details.
- **Submit Registration:** After entering all required information, submit the form.
- **Get Extended Warranty:** Your warranty period will be doubled, ensuring additional protection.

You can also use these links for easy access to the registration portal:

### The Perfect Balance of Strength, Accuracy, and Reliability

We rely on a wide range of Makita products, including angle grinders, impact grinders, and sanders, for our heavy sheet metal fabrication needs. The 4- and 5-inch grinders deliver excellent performance with a significantly lower failure rate compared to competitors.

Makita's battery-powered tools, including impact wrenches and sanders, have proven to be highly efficient, outperforming commercial pneumatic alternatives and significantly increasing our productivity.

The battery performance meets our operational requirements well. We run one-hour shifts with a charging cycle of just twice a day, & the batteries rarely need multiple recharges. Additionally, we are highly satisfied with Makita's maintenance, support, & dealership service.

The dealers are proactive and always willing to meet in person to resolve any issues. While the pricing of some components is a minor concern, we have been assured of support in this regard. Overall,

Makita tools have been a game-changer for our operations, delivering superior reliability, efficiency, and performance.

**Stronger Business, Smarter Tools – Thanks to Makita**

**DTW1001**  
Brushless Cordless Impact Wrench

## Interview

### Smart Technology for a Better Gardening Experience

Makita machines have been a pleasure to use in our workspace. Previously, we relied on bulky garden machines that were difficult to handle, but Makita's tools have brought great ease of use, reducing worker fatigue and improving efficiency.

Tasks that used to take eight hours now take just two to three hours, and the finish is noticeably superior. The battery performance is excellent, and we are considering upgrading to a higher capacity for even longer run times in the near future.
