*DC40RB / DC40WA / DC18RD / DC18SH: Two Port Multi Charger

**DC18RE: CXT & LXT Dual port Fast Charger

XGT is a new system with its own tools, batteries, and chargers. A combination of innovative tool design and higher output batteries provide a genuine solution for high demand industrial users.

Optimum power supply system and Optimum charging system

The XGT range of tools and batteries come with a built-in program, providing digital communication between the battery and tool. Allowing not only for the battery to talk with tool but also the tool to talk to the battery. Battery technology and motor engineering that work together for optimum performance.

Tool ↔ Battery ↔ Battery Charger
Digital communication

Optimum charging system

Auto maintenance system with two cooling fans for providing more optimum fast charging

Built Tough

High durability specifications specially designed for 40Vmax Li-Ion batteries

Shock absorption structure

Waterproof Triple-layer Structure prevents cell failure due to water and dust.

Terminal short-circuit prevention structure
The protection wall is provided between terminals against water and dust.

High Rigidity Battery Rails
Durable slide in battery rail that holds the battery and the tools firmly and securely to withstand high power products

40Vmax mechanism movie

This movie was filmed in Japan.
Models and specs may vary by country.

Rapid Optimum Charging System

It is necessary to cool down before start charging when the battery temperature is high.
Built-in fan circulates air through the battery before start charging and during the charging process to cool the battery for faster charge time.

The Makita Rapid Optimum Charger communicates with the battery's built-in chip throughout the charging process to optimize battery life by actively controlling current, voltage and temperature.

The optimum charging system

Forced air cooling

Fast charging

General charging method

Natural heat dissipation

Waiting time for charging

The optimum charging system

General charging method

Battery Protection Function

This function is communication technology that allows the tool and battery to monitor conditions and exchange data in real time to protect against Overload, Over-Discharge and Overheating.

Firm Holding

Multi-contact terminals reduce electrical resistance and increase connection stability withstanding against vibration, and ultimately ensures Stable current supply to the tool.

Anytime Charge

No Memory Effect
No discharging required

Shock Absorbing

Portable Power Pack

PDC1500

Powered by 36V-40Vmax built-in battery

1,500Wh-class high capacity

IPX4

Charger: DC4001
Charging time: 450 min

PDC1200

Powered by 36V-40Vmax built-in battery

1,200 Wh high capacity

IPX4

Charger: DC4001
Charging time: 360 min

PDC01

Powered by up to four 18V LXT batteries

432 Wh high capacity
(with 4 pcs. of BL1860B)

IPX4

Features and benefits (PDC1500 / PDC1200)

Height-adjustable waist belt
The position of the waist belt can be adjusted for personal fit and comfort.

Quickly removable harness
The position of the waist belt can be attached / removed from the main unit with a single action.

Reflectors
keep operator visible from a distance even in the dark.
