MOTOR

Powered by a 40Vmax XGT Li-Ion battery, equipped with a BL motor, and delivering a maximum output of 1.1 kW

Guard with high visibility of the blade

Guard with improved visibility of the blade tip while maintaining the coverage angle.

Cutting depth adjustment

The working depth can be adjusted by adjusting the tire height.

AFT Active Feedback sensing Technology

shuts down current to the motor, if the rotation speed suddenly slows down (in the case of kick-back, etc.).

BL MOTOR

New lock-off mechanism

By adding a lock lever to the lock-off lever, we have revised the automatic power-off time, enhancing work efficiency.

XPT / IPX4 -compatible

High water-resistance allows the user to operate the tool even if it is wet with water.
