Slim and Compact Motor Housing

High Dust-Proof Construction

- Protective zigzag varnishing on armature
- Protective powder vanish-coating on field
- Bearing-protective labyrinth structure
- Three dust-proof ball bearings seal out dust.
- Dust-proof vent design

Electronic Control

GA5020C, GA5021C, GA6020C, GA6021C

Anti-restart function

Prevents accidental startup for safety even if the machine is plugged to power source with the lock-on switch on.

LED power light

Soild Green indicates that Cuurent is applied to the circuit. Blinking Red warns that Anti-Restart Function is activated.

- Constant speed control
- Electronic current limiter protects motor from overload.
- Soft start suppresses start-up reaction.
- High power input : 1,450w
- Electronic control enables higher power input.

Super Joint System

GA5020, GA5021, GA5020C, GA5021C GA6020, GA6021, GA6020C, GA6021C

Lock Spring that joins Spindle and Sprial Bevel Gear protects the gears by absorbing shock casued accidental wheel lock during operation, ensuring longer tool life.

Single-finger trigger

GA5010, GA5020, GA5020C GA6010, GA6020, GA6020C

Large type trigger GA5011, GA5021, GA5021C GA6011, GA6021, GA6021C
