Auto-start Wireless System

Connects to a compatible vacuum cleaner with Bluetooth. The vacuum cleaner automatically runs while the switch is on.

Table saw

Work amount on a full battery charge

60 cuts

Cut 40 x 500mm Melapi with BL4040 battery

Rip fence secured at both ends

Minimizes bending when the workpiece is pressed against it, enhancing cutting accuracy in table saw mode.

Table height adjustment

A rack-and-pinion mechanism allows easy fine adjustment of the table height by simply turning the knob.

Blade cover for both modes

The blade cover is used in Miter saw and Table saw modes. The push stick can be stored on the side of the blade cover to help avoid loss.

Enhanced dust-collection efficiency

A redesigned airflow path minimizes the dust ejected from the blade cover, enhancing dust-collection efficiency in table saw mode.

Vacuum cleaner activation switch

The switch that activates only the vacuum cleaner via AWS makes it easier to clean the tool after use.

LED job light with cut line guide

An LED light casts the blade's shadow on the workpiece, allowing the blade to be aligned with the marked cut line.
